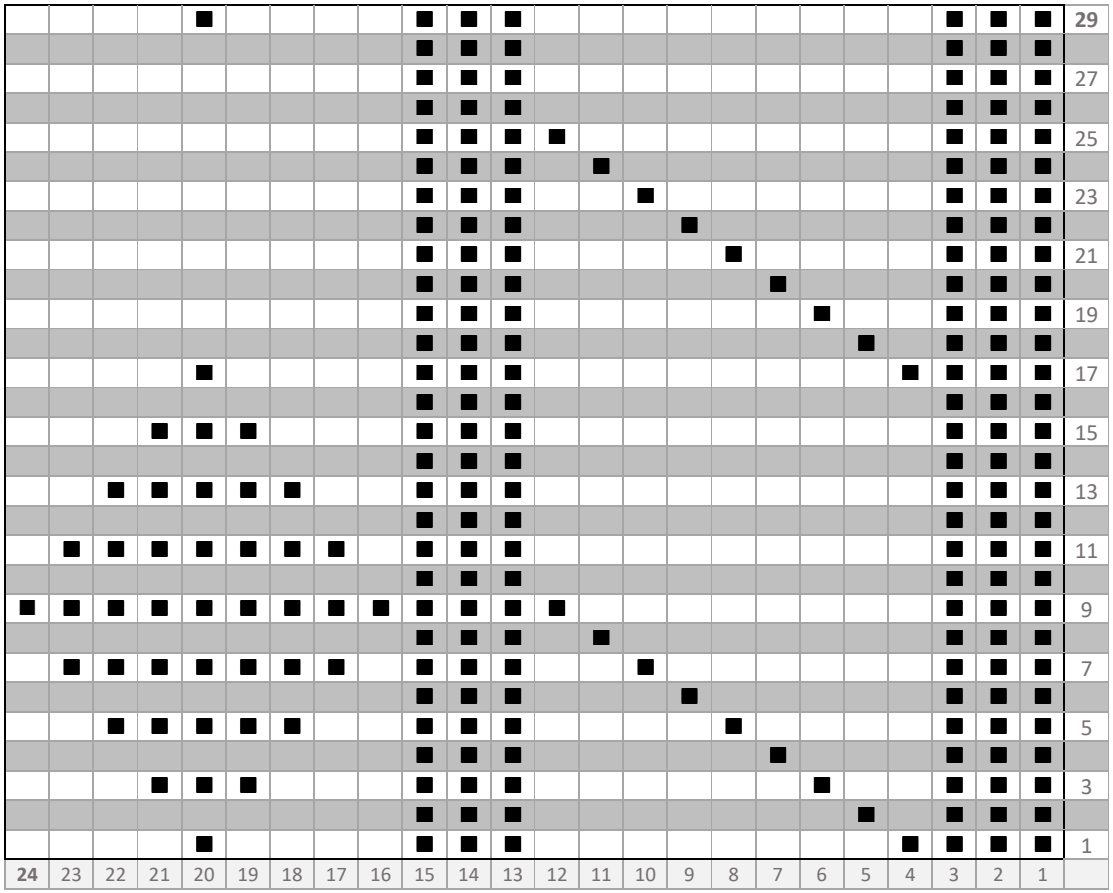
Version 1.0 : 10.3.2019

GP46 Henry Little's meshes and diagonal bars gansey

■ = purl stitch on the right side (knit stitch on the wrong side)

CRRMU : CP3010



Note that there is no simple pattern repeat within the height of the yoke. Instead, the alternate columns of meshes and bars have their own repeats of 28 rows and 16 respectively. This avoids direct, geometrical and mechanical relationships and creates a much more subtle design.
